Stimulus?

What is Stimulus?

Stimulus is something which inspires an artist or performer and gives them new ideas. This can be a physical stimulus or it could be something that stimulates your imagination through your senses. Such as a smell or a sound.

Example...

Sound... A plane flying over may provoke thoughts of eating ice cream on a beach in the hot sun.

Creating something using stimulus

Taste – a cooling drink on a hot day. Create an advert for a drink that would satisfy.

Smell- smelly socks.... Who do they belong to? Write a comical short scene where smelly socks are included.

Sound (fire crackling) create a character with the role on the wall sheet using fire crackling as a stimulus

Touch – sand between your toes- storyboard a scene.

Our senses

Sight- what can you see out of you front door? Create a scripted monologue using what you see as a stimuli
